

26 Gauge Grandrib 3[®]

FABRAL
METAL WALL AND ROOF SYSTEMS

Fabral's classic Grandrib 3[®] profile is one of the most versatile steel panels in the industry. The 3/4 inch high ribs on nine-inch centers create an attractive board and batten look while providing extra strength for commercial and residential roofing or siding applications.

Available in ten colors and plain galvalume, 26 gauge Grandrib 3[®] provides exceptional durability and wind resistance, as well as excellent hail and fire resistance.

ENDURACOTE 
PREMIUM DEFENSE
Against the Elements
